

## **Note re Late Registrations**

The Highland Pony Society requires applications for registration to be submitted by 30 November in the year of birth to guarantee the entry being in that year's stud book. Applications received after 31 December for foals born that calendar year and not submitted within six months of the foaling date will be subject to the late registration fee and may miss the relevant year's Stud Book. Late registrations must be approved by Council and will be charged double the normal fee. A DNA profile and parentage tests against the sire and dam will be required for any progeny not registered by the end of the **calendar year following their birth.**
