Section 2

If you plan to use a professional photographer's photograph/s within your advert, you must check whether a copyright permit is required. If so, we must have a copy of this permit before your booking can proceed.

All supplied hard copy photographs must be clearly marked on the reverse with the name of the pony/rider/handler.

Digital images **must be high resolution** (at least 300dpi at actual size). Low resolution images from mobile phones and social media do not reproduce well in printed format. These are images that are 72dpi and normally have an RGB colour setting. They are formatted for screen use (such as websites and social media and not for commercial printing).

If in any doubt always submit hi-res images, they can then resize or crop down to the size needed from this, whereas a low-res image's resolution can not be scaled up or increased as this would cause it to blur or pixelate.

All digital images should be renamed appropriately to reflect the content of the image e.g. Hamish1.jpeg (not image001.jpeg).
