

Highland Pony Society

Breed Conservation

SPARKS PROGRAMME

Dear Stallion Owner,

Following on from the Centenary Conference, the Breed Conservation Group have been working with Andy Dell of the SPARKS Programme and Grassroots, initially to collate information, so that Dr Dell can start work on the Highland Pony mean kinships. We had hoped to have the information ready for this breeding season. This is still possible but we really need your help. The accuracy of the information on Grassroots is reliant on owners keeping their animal records up to date so the lists we have need to be verified. Could you please fill in the questionnaire attached and return it to saclarke@williamwoodfarm.com without delay.

Name

County of Residence.....

Stallion Name and Reg Number.....

Stallion License Number (if you use one).....

Year of Birth

Colour

Is the Above stallion still alive YES/NO

Has Stallion been Gelded YES/NO

Is the Stallion available for public use YES/NO
